

# **Update 2013 Sustainability Indicators and the Progress Report**

## **HOW DO THEY GO TOGETHER?**

*March 30, 2011*

# Sustainability Indicators

---

- Provide a way to monitor if the resource management strategies and objectives of the CA Water Plan result in sustainable water uses and supplies.
- They will tell us if the actions we are taking (or didn't take) make a difference.
- They will also inform the recommendations and actions we should take.

# Progress Report

## Performance Measures

---

- Will measure to what extent the Objectives of the 2009 CA Water Plan were actually implemented.
- They tell us if the activities we recommended were actually taken.
- By monitoring what actually happens related to the Plan, it will be possible to make course corrections in future plans.

# Example

---

- *Vision – Better Health*
  - *Objective – Run More Every Week*
  - ***Performance Measure** – Number of miles Run x Timeframe, minus current performance*
  - ***Indicator** – Resting/Recovery Pulse, Body Fat*
- 
- ***Performance Measure** – Did we follow our plan?*
  - ***Indicator** – Is what we are doing getting us closer to what we want?*
